WEEK 1 — "What Is Prompt & Pause?" (Awareness)

Day	Format	Content Idea	Caption Direction
1	QC	"You don't need to have it all figured out. You just need 5 minutes and one honest question."	Introduce the brand. "This is Prompt & Pause. A place to think, not perform. Link in bio."
2	RL	Founder intro — Face-to-camera: "I built an app because I was tired of journaling apps that felt like homework" (30-60s, casual, authentic)	Share your personal story. Why you built it. What you struggled with.
3	CAR	"5 Signs You Need a Reflection Practice" — Slide 1: Hook. Slides 2-5: Signs (e.g., "You feel busy but not fulfilled", "You react instead of respond"). Slide 6: CTA.	"If 3+ of these hit... you're not broken, you're just not pausing. Try it free — link in bio."
4	QC	"What would change if you gave yourself permission to feel what you're actually feeling?"	"This is today's prompt. Sit with it. No right answer. Drop a ❤️ if this one hit."
5	RL	Screen recording walkthrough — Show signing up → getting a prompt → writing a reflection → seeing your mood tracker. Keep it snappy, lo-fi music.	"Here's what 5 minutes of self-care actually looks like. No crystals required."
6	QC	"Healing isn't linear. Neither is growth. But showing up daily? That compounds."	"Your streak doesn't need to be perfect. It just needs to exist."
7	CAR	"How Prompt & Pause Works" — Slide 1: "Your daily reflection in 3 steps". Slide 2: Get your prompt. Slide 3: Reflect. Slide 4: Track your mood. Slide 5: Watch yourself grow. Slide 6: CTA.	"It's not journaling. It's not therapy. It's the space in between. Free to start."

WEEK 2 — "Feel Something" (Engagement & Relatability)

Day Format	Content Idea	Caption Direction
8 QC	"You're not 'too much.' You've just been around people who aren't enough."	"Today's prompt: When was the last time you felt fully accepted? Reflect on it."
9 RL	"Things I stopped apologizing for" — Trending format. Text on screen: needing alone time, setting boundaries, choosing peace, saying no. End card: "Prompt & Pause — reflect daily."	Relatable, shareable. Ride trending audio.
10 CAR	"What 30 Days of Reflection Actually Did for Me" — Personal story carousel. Before: reactive, anxious, scattered. After: calmer, more self-aware, intentional.	Founder vulnerability. "I'm not selling you a fix. I'm sharing what worked for me."
11 QC	"The question you're avoiding is usually the one you need most."	"We send you one question a day. Sometimes it's uncomfortable. That's the point."
12 RL	"POV: You finally start checking in with yourself" — Aesthetic morning routine clip: coffee, phone notification from P&P, typing a reflection, smiling. Soft music.	Aspirational but achievable. "This could be your morning. Link in bio."

17 CAR	"The Science Behind Daily Reflection" — Slide 1: Hook ("It's not woo-woo"). Slides 2-5: Benefits backed by research (reduced anxiety, better decision-making, emotional regulation, improved relationships). Slide 6: CTA.	"Your brain literally rewires when you reflect consistently. Here's the proof."
18 QC	"You don't need more advice. You need more honest conversations with yourself."	"That's what a prompt does. It starts the conversation. You finish it."
19 RL	"What your mood tracker reveals about you" — Show the mood tracker feature. Explain how patterns emerge over a week. "I noticed I'm always 😊 on Wednesdays..."	Product feature highlight disguised as relatable content.
20 QC	"Growth isn't always loud. Sometimes it's just noticing what you used to ignore."	"The small shifts matter. Your streak is proof you're showing up."
21 CAR	"Free vs Premium — What You Get" — Clean comparison carousel. Not salesy — informative. Highlight custom focus areas, AI insights, voice prompts, export.	"Free gets you started. Premium helps you go deeper. Both are valid."

Value Post:

Most people spend 6+ hours on their phone daily but can't find 5 minutes to check in with themselves.

That's not a time problem. That's a priority problem.

Prompt & Pause sends you one question a day. Just one. It takes 5 minutes to answer. And over time, those 5 minutes compound into real self-awareness.

Story Post:

I built Prompt & Pause because I was struggling.

Not in a dramatic, rock-bottom way. In a quiet, "I don't know what I'm feeling" way. I'd go through entire weeks on autopilot. Busy but not present. Productive but not fulfilled.

A therapist once told me: "You don't need more answers. You need better questions."

That stuck with me. And eventually, it became this app.

If you've ever felt like you're moving fast but going nowhere — this is for you.

Community Post:

Quick check-in for everyone here:

What's ONE word that describes how you're feeling right now?

No judgment. No fixing. Just honesty.

I'll go first: "hopeful" 💛
